To prospective clients of Derek Gould,

When my manufacturing business outgrew our previous location we had the good fortune of discovering a property represented by Derek. As this was my companies first purchase of a commercial / industrial property I was required to rely heavily on Derek's experience in guiding me through the steps and procedures necessary to complete a large commercial transaction.

Derek was pleased to assist us whenever we had any questions and was always accessible, going beyond the realm of his duties. We have now dealt with Derek for three years as he represents our commercial rental property and I can honestly say that Derek and his team are true professionals. Derek and his team are in regular contact with me, keeping me abreast of not only developments in regards to my own property but also trends and market conditions in the area. I would highly recommend Derek's services.

Sincerely,
Mr. Adrian Jayne,

President.
